

## Material Tested

Tongkat Ali

For: Lost Empire Herbs

Lot #: BTKA07DEC23

Purpose: Determination of Eurycomanone Content by HPLC

Sample ID: 24022CSA, Plate #: 220106

### What We've Tested

We tested this sample by High Performance Liquid Chromatography. HPLC is a technique for separating, identifying, and quantifying compounds that are present in a sample.

## Conclusion

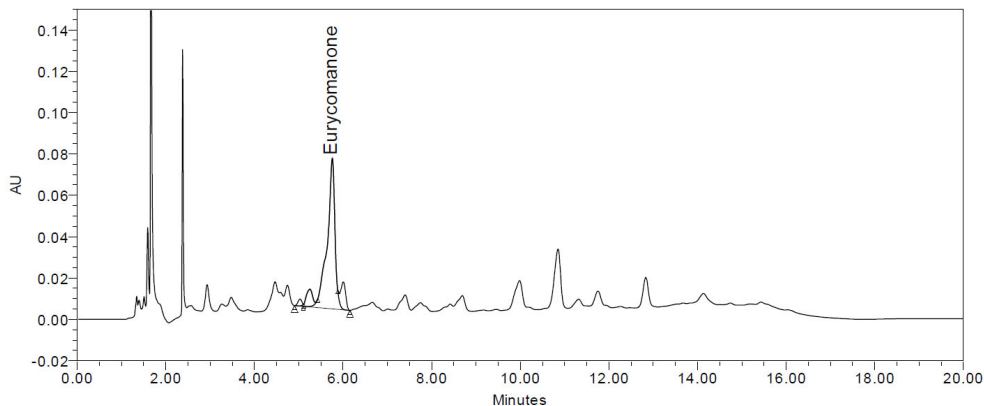

This "Tongkat Ali" test sample contains an average 1.0% of Eurycomanone on the as-is basis.

The HPLC method used was developed and validated by Alkemist Labs and/or is a Scientifically Valid method.

## Test Details

### High Performance Liquid Chromatography (HPLC)

We tested this sample against reference standards of known purity to determine its content in the Test Sample.

We tested the sample to make sure that it meets quality specifications for strength.
